4. Read the following text, then answer the questions below :

Many inventions start with a simple thought. Turning that idea into something real and useful takes time, effort, and a few clear steps. The first step is identifying a problem. Inventors look at the world around them and ask, "What needs to be improved?" Once they have a problem, they begin to brainstorm ideas to solve it. Next, they create a plan or design. This step includes drawing, listing materials, and deciding how the invention will work. Then, they build a model of using simple stuff. After building the model, inventors must test it. They ask questions like, "Does it work? Is it safe? Can it be improved?" If it doesn't work as expected, they go back, make changes, and test again. This process is called improving through testing.

Finally, when the invention works well, inventors may present it to others, create a real version, or even try to sell it. Inventions don't have to be big or complex. What matters is the impact-how the invention helps people or solves a problem. With creativity, patience, and effort, anyone can turn a simple idea into something that makes a difference.

Soha always enjoyed English, but this year she faced a new challenge — grammar lessons became very difficult. She struggled with the passive voice. Understanding the rules felt impossible, and after failing a quiz, she felt discouraged.

"This is too hard," Soha thought. But instead of giving up, she showed determination. Her teacher noticed her struggle and said, "Take it step by step. Focus on one rule at a time. Don't be afraid to ask for help."

Soha started to work harder. She watched videos, practiced with a friend, and made grammar posters for her room. Each grammar rule felt like an obstacle, but she didn't stop.

Soha slowly began to improve. She passed her next quiz and felt proud. "I'm not perfect yet, but I'm trying," she said. "It takes courage to keep going, even when something feels difficult."

Everything you do online leaves a trace—like a footprint. This includes the websites you visit and the things you post. Staying safe online is very important! Here are some simple tips to help you protect your privacy and keep your information safe: First, don't share personal information—like your full name, address, phone number, or school—unless your parents say it's okay. Second, always keep your passwords secret, except from your parents. Third, don't talk to strangers online or meet them in real life. Fourth, don't open links or downloads without asking a grown-up first—some might have viruses. Fifth, be kind online—don't send mean messages, and tell a grown-up if someone else is mean to you. Finally, tell a parent or teacher if you feel worried or see something strange online.

Facing challenges helps us become stronger and more confident. When we solve problems, we learn new skills. Each challenge teaches us something helpful about ourselves and the world around us. Even when things feel hard, giving up doesn't make us braver. When we keep trying, we grow our ability to adapt and stay calm under pressure. Challenges make us think harder and find creative solutions. We also learn to ask for help from others when needed. In the end, facing challenges helps us prepare better for the future. The more we practice, the better we become at handling new and unknown situations with courage and knowledge. Challenges help us grow and become better people.

Listening Texts

MODEL 1

Listen to the text and answer the following questions:

Music is the art I like most because a musician's performance can immediately make me feel happy. The concerts are full of energy and meaningful moments. Some musicians are known for their rich talent all over the world. I try to listen carefully to understand their passion. I hope I can succeed in learning an instrument one day. I often imagine myself on stage, sharing my music with others and seeing their smiles.

MODEL 2

Listen to the text and answer the following questions:

Gen Alpha is changing the way we live and communicate. They are digital natives because they learn to use technology before they can read. They usually spend a lot of time exploring the latest trends. They share memes and sometimes send emojis instead of words. They enjoy discovering new apps every day. Many parents are trying to limit screen time while also encouraging useful digital skills.

MODEL 3

Listen to the text and answer the following questions:

Mahmoud Mokhtar (born in 1891) was a very important Egyptian sculptor and national hero. He was the first Egyptian sculptor in a long time, mixing ancient Egyptian art with new European styles. His most famous work, the Nahdat Misr statue, was created after the 1919 Revolution against the British. Mokhtar died in 1934. Later, a museum in Cairo was opened to display his art. His work continues to inspire many young Egyptian artists today.

MODEL 4

Listen to the text and answer the following questions:

Egypt is working to solve the problem of traffic jam. New metro lines like Line 3 and Line 4 were built. Projects like Tahya Misr Bridge and 6th of October Bridge in Cairo help cars move faster. The country is building an electric train and a monorail to give people more ways to travel. Egypt also made flyovers and tunnels. These plans make the roads better. These projects aim to reduce travel time and make transportation safer for everyone.

MODEL 5

Listen to the text and answer the following questions:

Amal wanted to climb the high mountain near her village. She faced many challenges, but she did not feel discouraged. Her father suggested that she practice climbing at a time. Amal kept going every day and showed determination. She learned to take it step by step and finally reached the top. Amal felt proud of herself and began to enjoy the amazing view from the mountain. Her success inspired other children in the village to try new challenges and never give up.

MODEL 6

Listen to the text and answer the following questions:

Hany went on a trip to Cairo last Friday. He visited the citadel. It's one of the most impressive buildings he has ever seen. The citadel was built in 1176. It was built by Salah El Din. It was built to protect Cairo from attacks. He learned a lot about the history of the citadel. He also talked to tourists and took photos with them. Hany had a great time and enjoyed the whole trip.

MODEL 7

Listen to the text and answer the following questions:

Malak wanted to grow a small vegetable garden, but the soil in her yard was very dry. At first, the seeds didn't grow and she felt disappointed. However, Malak didn't give up. Every day, she watered the soil and moved the plants to sunnier places. After a few weeks, small green leaves began to appear and Malak felt proud because she learned that hard work and patience can help her overcome her challenges.

MODEL 8

Listen to the text and answer the following questions:

Amr went on a trip to Cairo. He went with his friends. They went by bus. They visited many amazing places. They visited the Cairo Tower. It's a famous landmark. They also visited the pyramids and the sphinx. Amr met a lot of tourists there and took some photos with them. He learned a lot of things about our great civilization. He went back home in the evening. Amr had a lot of fun on his trip.

MODEL 9

Listen to the text and answer the following questions:

Welcome to the City Art Gallery. Our journey today begins with a very special sculpture. It is made from smooth, dark wood, and shiny metal. The artist wanted to show the growth of a community. If you look closely, you can see hidden faces in the design. This amazing artwork is very valuable because it is the artist's original piece. It tells a story about traditions and new ideas coming together. The goal was to create something that feels both historical and lively.

MODEL 10

Listen to the text and answer the following questions:

Social media is fun, but you must be responsible. Every post, comment, or picture leaves a digital footprint. Active footprints happen when you share content. Passive footprints happen without noticing, like websites tracking your visits. Strong passwords and privacy settings protect your information. Trusted adults can guide you, and thinking carefully before posting keeps you safe online.

Soha always enjoyed English, but this year she faced a new challenge—grammar lessons became very difficult. She especially struggled with the passive voice. Understanding the rules felt impossible, and after failing a quiz, she felt discouraged.

"This is too hard," Soha thought. But instead of giving up, she showed determination. Her teacher noticed her struggle and said, "Take it step by step. Focus on one rule at a time. Don't be afraid to ask for help."

Soha started to work harder. She watched videos, practiced with a friend, and made grammar posters for her room. Each grammar rule felt like an obstacle, but she didn't stop.

It took time, but Soha slowly began to improve. She passed her next quiz and felt proud of herself. "I'm not perfect yet, but I'm trying," she said.

Exploring the world can lead to amazing new things. Last summer, Mr. Ali's family went on a trip to the mountains. It was hard work, but they saw some cool old things and learned about how the people there live. The younger brother really wanted to see the hidden caves, hoping to find some old treasure. They also went to a big city. It was a busy place with lots of new ideas. They saw a display of helpful new tools, like ones with special parts that could sense when people moved, to help those who couldn't move very well. People were friendly. They gave Mr. Ali's family some free gifts. Although the city was new and modern, it still felt old and special in a good way. They learned that many countries are helping each other with new medical studies, which is a great thing for the future. Their trip showed them how different parts of the country mix the past with new ideas.

General Tests

Test 1

Mom: Ali, your Gen Alpha sister uses tablets differently than you did at her age!

Ali (Gen Z) : I know! She's already editing videos at 7. Mrs. Noura told us in ICT class that Gen Alpha processes information faster.

Teacher (on video call): That's correct. Research shows they can use 5 apps at the same time. But they mustn't neglect offline skills.

Little Sister: Look! I just made a reel about our cat... and did my math homework!

Test 2

Dina was always full of imagination. She dreamed of becoming a sculptor and making special art work. Last year, she participated in a local art competition. Although her first model was not perfect, she received positive feedback. Her teacher encouraged her to keep going. Dina worked hard, and her final piece,

an amazing statue of a bird flying was displayed in the city gallery. It was so original that it became a symbol of hope for many young artists. Dina believes that with passion and innovation, anyone can achieve their dreams.

Test 3

Do you know that Gen Alpha, born from around 2010 to the mid-2020s, is changing the way we live and communicate? They are digital natives, learning technology before reading, and spending much time online. They explore trends, create short videos, and connect with others through social media. Parents try to limit screen time while encouraging useful digital skills. Gen Alpha uses technology to express themselves and shape their identity.

Test 4

Generation Z and Generation Alpha are two young generations today. Gen Z includes people born between 1997 and 2012, while Gen Alpha includes children born from 2010 until now. Both groups grow up in a digital world, using smartphones, tablets, and computers daily. They enjoy social media, videos, apps, and online games. Digital trends like short videos, emojis, and memes connect them and help them share ideas, support causes, and understand each other.

Test 5

Saja, a 14-year-old student, talks about her daily use of technology. She spends 5–6 hours on screens, including homework, chatting, and watching memes or short videos. She uses emojis and follows online trends. To balance screen time, she puts

her phone away during meals, spends more time outside, and does sports. She advises students to enjoy screens but not let them take control

Test 6

Student A says screen time is fine because it helps them learn, chat, and have fun as digital natives.

Student B agrees but warns that too much time on smartphones can be unhealthy and that balance is important.

Student A enjoys checking social media, sending emojis, and sharing funny memes.

Student B reminds them that it's also important to enjoy life offline.

Test 7

The internet is part of our daily lives. We use it for schoolwork, talking to friends, and having fun. It is important to stay safe online. Everything you do online leaves a trace. Use strong passwords with letters, numbers, and symbols, and change them regularly. Be careful about what you post. Check website and app settings to protect your information. Don't share personal data like your address or phone number.

Test 8

When you use social media, you leave clues about your interests, thoughts, and personality. These clues form your digital footprint, which can be active (when you share something online) or passive (when websites collect information without you knowing). Your posts shape your online identity, and friends, teachers, or future schools might see them. It is important to think carefully before sharing, because your digital footprint lasts forever.

Test 9

Everything you post online becomes part of your digital footprint. Photos, comments, and personal information can be seen by others. Sharing something inappropriate might affect your future, such as getting a job or entering college. Once something is online, it is hard to remove. That's why it's very important to think carefully before posting anything. Being responsible online protects your reputation and future opportunities.

Test 10

Soha always enjoyed English, but grammar became difficult this year. She especially struggled with the passive voice. After failing a quiz, she felt discouraged. Her teacher advised her to focus on one rule at a time and ask for help. Soha worked harder, watched videos, practiced with a friend, and made grammar posters. Slowly, she improved, passed her quiz, and felt proud of her efforts.

Test 11

Cairo is a very busy city with traffic jams every day. Many people drive cars, which blocks the roads and causes pollution. Egypt is building new metro lines, bridges, flyovers, tunnels, an electric train, and a monorail to help people move around faster. These projects improve roads and encourage public transportation. In the future, more roads and train lines will make Cairo cleaner and easier to travel in.

Test 12

Facing challenges helps us grow stronger and more confident. When we deal with problems, we learn new skills. Each

challenge also teaches us something useful about ourselves and the world. Even when it feels hard, not giving up makes us braver. In the end, facing challenges prepares us for the future and helps us achieve more in life.

Test 13

Amina wanted to grow a small vegetable garden, but the soil in her yard was very dry. At first, the seeds did not grow, and she felt disappointed. However, Amina decided not to give up. Every day, she watered the soil and moved the plants to a sunnier place. After a few weeks, small green leaves appeared. She felt proud because hard work and patience helped her succeed.

Test 14

There is a wonderful world of art around us! Artists create paintings, sculptures, and performances to express ideas and emotions. Some works are bright and colorful; others use smooth stone or shiny metal. Creativity helps artists solve problems and share feelings. Every piece has a message, like a hidden story. Visiting galleries is exciting because there is always something new to discover.

Test 15

Mahmoud Mokhtar, born in 1891, was a famous Egyptian sculptor. He mixed old Egyptian art with new European styles. His most famous work, the Nahdat Misr Statue, shows a woman and a Sphinx, symbolizing Egypt's history and agriculture. Mokhtar actively participated in the art movement, promoted Egyptian identity, and gained international recognition. He died in 1934,

and later a museum in Cairo was opened to show his art.
